

Hrcrm Issues

1. In dashboard tab > view agent button > view action (eye icon)> address tab> add address modal > city field design layout.

The screenshot shows the 'Add Address' modal within the 'Profile' section of the Hrcrm system. The modal is titled 'Add Address' and has a close button in the top right corner. It contains five input fields: 'Street Address *', 'City', 'State', 'Country', and 'Pincode'. The 'Street Address *' field is marked with a red asterisk. Below the input fields is an orange 'Submit' button. The background shows the 'Profile' page with tabs for 'General', 'Address', 'Contact Details', 'Special Fares', 'Products Type', 'Airline Activation', 'Provision / PLI', and 'Conversations'.

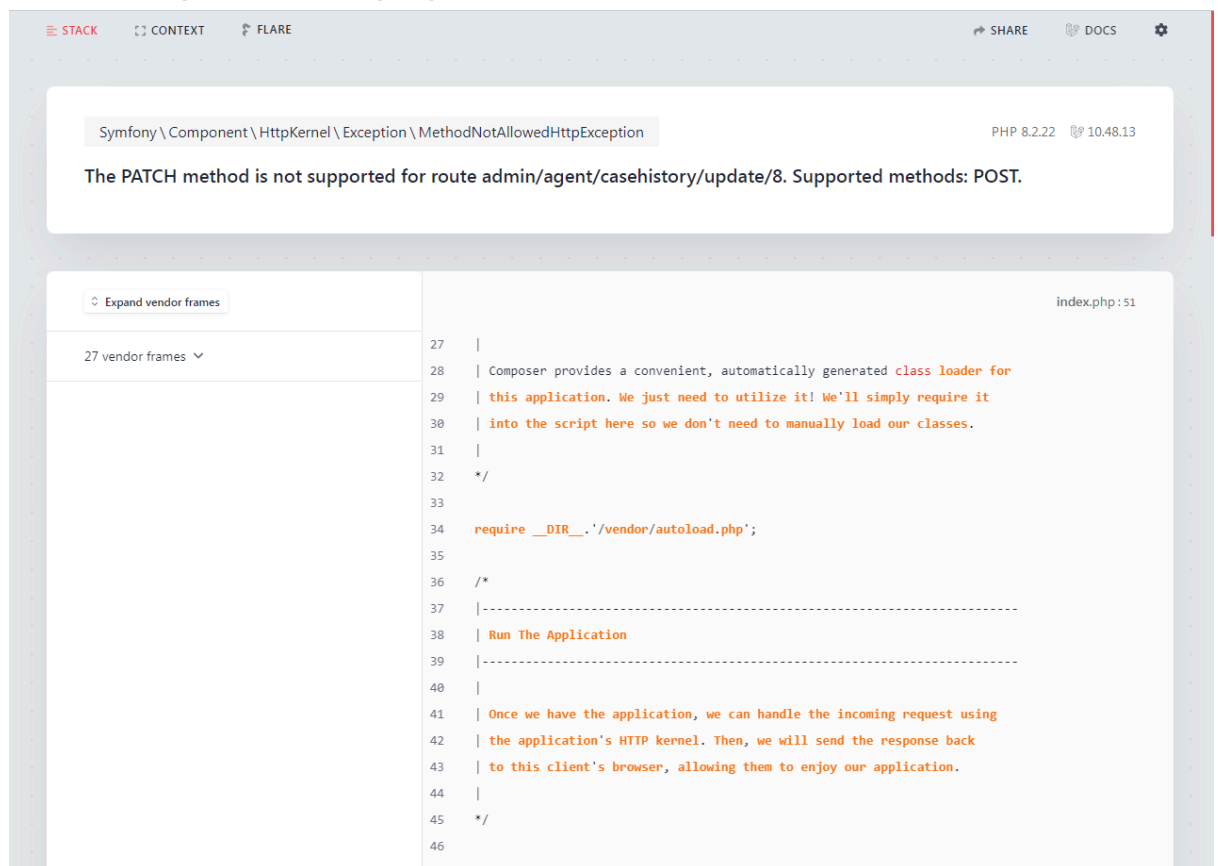

2. In contact details tab view, add contacts modal > firstname field.

The screenshot shows the 'Add Contact' modal within the 'Profile' section of the Hrcrm system. The modal is titled 'Add Contact' and has a close button in the top right corner. It contains six input fields: 'Title *', 'First Name *', 'Last Name', 'Email', 'Phone', and 'Position'. The 'Title *' and 'First Name *' fields are marked with red asterisks. Below the input fields is an orange 'Submit' button. The background shows the 'Profile' page with tabs for 'General', 'Address', 'Contact Details', 'Special Fares', 'Products Type', 'Airline Activation', 'Provision / PLI', and 'Conversations'.

3. In conversations tab view, add comments> modal view

The screenshot shows a web application interface with a top navigation bar containing tabs: General, Address, Contact Details, Special Fares, Products Type, Airline Activation, Provision / PLI, Conversations (selected), and Case H. Below the navigation bar, there's a sidebar with 'Accounts' and a '+ Add' button. The main content area displays a modal titled 'Add Comments'. The modal has two input fields: 'Title *' and 'Description'. Below these fields is an orange 'Submit' button. At the bottom of the modal, there's a timestamp '2024-08-18 16:00:36'.

4. In case history tab view, when we click on edit action, and wants to save changes then page gives error.

5. In accounts tab view, add transaction modal design issue.

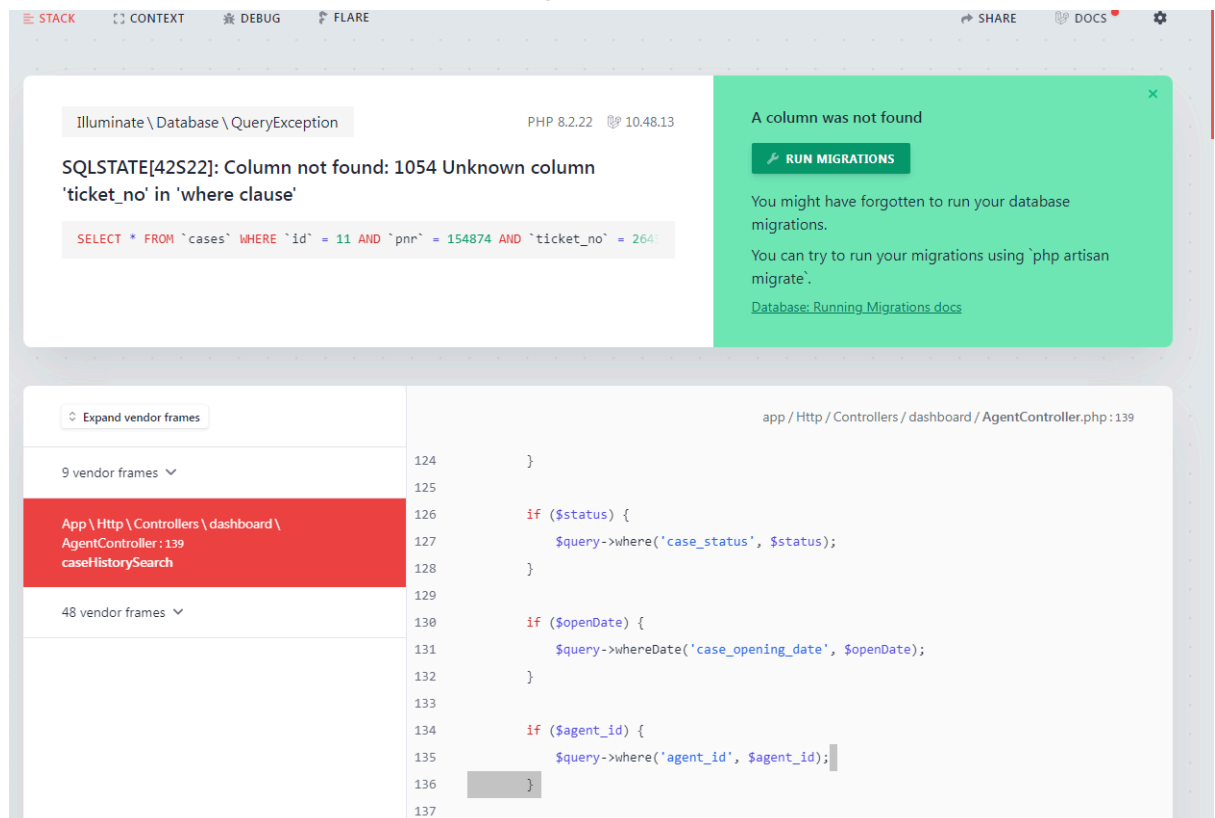

The screenshot shows a web application interface with a top navigation bar containing tabs: General, Address, Contact Details, Special Fares, Products Type, Airline Activation, Provision / PLI, and Conversations. Below this is an 'Accounts' tab. A modal titled 'Add Transactions' is open, featuring a close button in the top right corner. The modal contains four input fields: 'Debit Amount' with a red asterisk, 'Credit Amount', 'Type', and 'Transaction Date' with a calendar icon. A 'Submit' button is located at the bottom center. To the right of the modal, a table with a 'Balance' header and two rows of '0' is partially visible.

6. In admin > add category tab, when we click on add categories button it opens the modal and when we enter the category and click on submit then it reflects the error page.

The screenshot displays a PHP error page from a web browser. The error message is 'ErrorException' with the details 'Undefined variable \$categories' and 'PHP 8.2.22' at '10.48.13'. Below the error message, there is a section for 'Expand vendor frames' showing 55 vendor frames. The main part of the screenshot shows the source code of the file 'resources / views / admin / categories.blade.php' at line 42. The code is as follows:

```
27
28 <div class="row">
29   <div class="col-md-12">
30     <div class="table-responsive">
31       <table class="table table-striped custom-table mb-0">
32         <thead>
33           <tr>
34             <th>#</th>
35             <th>Category Name </th>
36             <th>Status</th>
37             <!-- <th>Sub-Category Name</th> -->
38             <th class="text-end">Action</th>
39           </tr>
40         </thead>
41         <tbody>
42           <!-- @foreach($categories as $index => $category)
43             <tr>
44               <td>{{ $index + 1 }}</td>
45               <td>{{ $category->name }}</td>
```

7. In travel agent > case history tab, when we fill the fields and click on search then it shows error page,

8. In airlines > airlines list tab, when we add airlines and add the website field in the form, then after adding when we click on view action and in general tab view, when we click on website then it shows error.
